EasyRoll Banner® Single or Twin

Width : 60,85,100,
120, 150 or 240 cm
(or custom)

System Components

Stand
Pole (1,2 or 3)
Rail (1 or 2)
Carry Bag (up to 150cm)

Graphic Dimensions

Banner cut size
229 cm High x Width
254 cm High x 240cm
Visible Size
215 cm x Width
Minus rail option

Design your banner at a maximum visible print size of 215 cm high less your choice of rail as above, on a total banner height of 229 cm. 30mm print bleed at the bottom will cover any brief exposure when the banner is extended into its display position. Pole extension option increases banner height from 215 cm to 250 cm.

240 cm model banner height is 240 cm with 17mm in the snap rail with no rail option. For our 60 cm wide stand reduce banner height by 39 cm.

Thin or slippery banners may need double-thickness at the top achieved by adding a strip of masking tape or similar to the back of the banner before fitting the rail.
