

10 great reasons to adopt Xpressions

1. Differentiation

duo.Xpressions creates an amazing visual impact. It is **truly different than any other display available** and can be best described as exciting, young, fresh and avant-garde.

With **infinite configuration possibilities**, you are only limited by your imagination.

2. Changeable Message/Graphics

Individual panels can be quickly replaced with a new message or image at a very low cost. **Replacing the graphic is as easy as buttoning your shirt.**

3. Dimensionality

The unique configuration of duo.Xpressions moves the portable display from a flat two dimensional look into an exciting three dimensional environment.

The display has a fluid look which invites the viewer into display with a **fantastic focus on your message.**

4. Fast Set Up

With the graphics attached to the frame, **the entire display completely sets up or down in less than ten seconds.**

5. Portability

duo.Xpressions is extremely lightweight and compact.

A 3 meter display weights less than 5 kg and can be carried over your shoulder. Nine meters of display easily fits in a single wheeled hard case.

6. Adaptable

The same display can be used in numerous venues including trade shows, outdoor fairs, product introductions, media presentations, retail showrooms, sporting events, road shows, corporate meetings and in many, many more places and applications.

7. Graphic Durability

Unlike other portable display graphics, duo.Xpression graphics can not be scratched, scraped, dented or dinged.

If the graphic gets dirty, simply throw it in the washing machine and dryer and you are ready to go.

8. Art Work Availability

With the digital era, art work has been geared to smaller paper and screen sizes. The large scale artwork required by other portable displays is very limited.

This is not the case with duo.Xpressions.

Since the individual graphics are relatively small, millions of images are available and most of them are free. Artwork is no longer a challenge with duo.Xpressions.

9. Low Cost of Ownership

Due to its light weight and compact nature, **duo.Xpressions minimizes labor set up costs, shipping costs, storage costs and handling costs.**

The **lifetime guaranteed frame** does not require tools and there are no parts and pieces to assemble. Additional graphics are stored compactly in very small boxes or tubes.

10. Highest Quality Graphic

duo.Xpressions graphics are dye sublimation prints on a proprietary stretch fabric which has an **M1 fire rating.**

The **special dye sublimation process** used on duo.Xpressions graphics generates unbelievable color saturation, lifelike skin tones, vibrant colors and the **highest image quality.**
